

WHOLESALE AUSTRALIAN EQUITY – VALUE FUND

17 OCTOBER 2016

New Product Disclosure Statement changes

We are writing to advise you of a number of changes relating to the Wholesale Australian Equity – Value Fund (the Fund) that will be reflected in the new Product Disclosure Statement (PDS) which will be available on our website (www.ampcapital.com.au – then go to the Fund's page) on 24 October 2016. These changes include updated information on how the Fund works, the introduction of securities lending and enhanced fee disclosure.

Details of these changes are provided below.

Before making any investment decisions, we recommend you read the information in the PDS about the benefits and risks of investing and the other features of the Fund.

Updated information – how the Fund works, significant features and benefits and how we invest your money

In reviewing the PDS for the Fund we have taken the opportunity to update the following information:

- > How the Fund works – The Fund invests predominantly in Australian shares and the Fund's investment philosophy is to purchase shares with the most promising long-term earnings for what the fund manager Alliance Bernstein (the Manager) views as the best price. The Manager believes that investors frequently overreact to short-term events and therefore overestimate the long-term impact of current negative trends. This causes securities to be mispriced relative to their objective long-term earnings prospects, creating compelling buying opportunities. The Manager relies on both quantitative and deep fundamental research capabilities to identify these opportunities.
- > Significant features – The Manager's Australian Value Equities investment team manages Australian equities and employs a systematic and disciplined bottom-up investment process characterised by an integration of fundamental and quantitative research in a way that aims to capitalise on the best of both approaches.
- > How we invest your money:
 - > The Fund holds a diversified portfolio of Australian shares listed on the Australian Securities Exchange. These shares will typically have the most promising long-term earnings for what the Manager views as the best price.
 - > The Fund may be suitable for investors prepared to accept a high level of volatility and risk as a trade-off for returns that might typically be expected to be above those returned over the longer term.
 - > The portfolio may not suit your particular circumstances. You should speak to your financial adviser to determine which investment portfolio best meets your goals and objectives.
- > Investment return objective – To outperform the S&P/ASX 300 Accumulation Index after costs and over rolling five year periods.

For further details, please refer to the new PDS.

Introduction of securities lending

From December 2016, the Fund will be able to engage in securities lending in order to generate additional returns for investors.

AMP Capital has recently piloted the implementation of a securities lending program across a number of AMP Capital funds. Securities lending is an investment practice whereby securities of a fund are lent to a third party (the borrower) for a period of time in return for a fee. Securities lending allows funds to use their assets held in custody to earn additional income return, in the form of fees paid by the borrower. These fees increase the portfolio return and thereby, the return to investors.

Securities lending does expose the Fund to some additional risks, which could cause a loss of capital, in particular the risk that the borrower defaults by failing to return the securities. However, comprehensive processes are in place to manage and substantially mitigate these risks, including careful selection of approved borrowers, borrowing limits, collateral requirements which are monitored and managed daily and restrictions on which securities are to be loaned.

Income earned from securities lending is returned to the Fund and accrued in the unit price after the deduction of operational costs and fees payable to the securities lending agent (for operation of the program and the provision of the indemnity) and to AMP Capital (for monitoring, governance and oversight). These fees are 30% and 10% of securities lending revenue, respectively, which are in line with normal commercial rates.

Enhanced fee disclosure

In accordance with amendments to the Corporations Regulations and new regulatory guidance from the Australian Securities & Investments Commission, we have implemented new enhanced fee disclosure requirements for the Fund. As a result, how we represent fees and costs in the PDS has been updated.

Previously, the PDS stated the management cost of the Fund as comprising the management fee, performance fee and recoverable expenses. Now, the stated management cost of the Fund in the PDS also includes indirect costs. These are not new costs being imposed on the Fund, these costs were incurred before, the indirect costs are simply now being quantified in the PDS. Examples of indirect costs include costs associated with the use of derivatives and exchange-traded funds.

It is important to note that this change in how we disclose the Fund's fees does not mean investors pay any additional management fees and does not reduce the net-of-fees return. Our management fees have not changed. The enhanced disclosure aims to provide a new level of transparency into the total costs of investing – both AMP Capital and non-AMP Capital costs.

Further information

If you have any further questions about this update, please contact your Account Manager or our Client Services Team on 1800 658 404, between 8.30am and 5.30pm (Sydney time) Monday to Friday or via email at clientservices@ampcapital.com.

Yours sincerely,

Nigel McCammon
Global Head of Client Services
AMP Capital Investors Limited

Important note: Investors should consider the Product Disclosure Statement (PDS) available from AMP Capital Investors Limited (ABN 59 001 777 591) (AFSL 232497) (AMP Capital) for the Wholesale Australian Equity – Value Fund (Fund) before making any decision regarding the Fund. AMP Capital Funds Management Limited (ABN 15 159 557 721, AFSL 426 455) is the responsible entity of the Fund and the issuer of units in the Fund. The PDS contains important information about investing in the Fund and it is important investors read the PDS before making a decision about whether to acquire, continue to hold or dispose of units in the Fund. Neither AMP Capital, nor any other company in the AMP Group guarantees the repayment of capital or the performance of any product or any particular rate of return referred to in this document. Past performance is not a reliable indicator of future performance. While every care has been taken in the preparation of this document, AMP Capital makes no representation or warranty as to the accuracy or completeness of any statement in it including without limitation, any forecasts.
