

# SPECIALIST DIVERSIFIED FIXED INCOME FUND

13 FEBRUARY 2017

---

## New Product Disclosure Statement changes (APIR code: AMP1992AU)

We are writing to advise you of a change relating to the Specialist Diversified Fixed Income Fund (the Fund) that will be reflected in the new Product Disclosure Statement (PDS) which will be available on our website ([www.ampcapital.com.au](http://www.ampcapital.com.au) – then go to the Fund's page) on 13 February 2017. This change pertains to Introduction of securities lending.

Details of this change are provided below.

Before making any investment decisions, we recommend you read the information in the PDS about the benefits and risks of investing and the other features of the Fund.

### Introduction of securities lending

From the end of January 2017, the underlying funds in which the Fund invests will be able to engage in securities lending in order to generate additional returns for investors.

AMP Capital has recently piloted the implementation of a securities lending program across a number of AMP Capital funds. Securities lending is an investment practice whereby securities of a fund are lent to a third party (the borrower) for a period of time in return for a fee. Securities lending allows funds to use their assets held in custody to earn additional income, in the form of fees paid by the borrower. These fees increase the portfolio return and thereby, the return to investors.

Securities lending does expose the Fund to some additional risks, which could cause a loss of capital, in particular the risk that the borrower defaults by failing to return the securities. However, comprehensive processes are in place to manage and substantially mitigate these risks, including careful selection of approved borrowers, borrowing limits, collateral requirements which are monitored and managed daily and restrictions on which securities are to be loaned.

Income earned from securities lending is returned to the Fund and accrued in the unit price after the deduction of operational costs and fees payable to the securities lending agent (for operation of the program and the provision of the indemnity) and to AMP Capital (for monitoring, governance and oversight). These fees are 30% and 10% of securities lending revenue, respectively, which are in line with normal commercial rates.
